

CARPENTRY PROGRAM

Congratulations and Welcome to the Carpentry Program

COVID-19 Information: First semester of your trades program will be a blended delivery approach. Practical components will be delivered face-to-face at the campus in your program's shops. Social distancing, frequent hand-washing, and other COVID-19 protocols are in place at all campuses. The theory portion of your program will be delivered via online/distance. You will require a computer and a good internet connection for the online/distance part of your program. For details on the minimal technical requirements for online/distance learning at Holland College, please visit <https://www.hollandcollege.com/technical-requirements-for-blended-and-distance-learning.html>

Schedules are in the process of being finalized but as a general rule practical training will be full days on campus, theory will be full days off campus via remote delivery. We will share the schedule as soon as it is completed. To support any students travelling from outside the province who may need to self isolate, programs will accommodate you through distance delivery for the first two weeks of classes (September 1-14). Students that do not need to self isolate in the first two weeks are encouraged to attend practical training class days. If the current directive of self-isolation from the PEI Chief Public Health Office changes between now and September 1, students will be advised of changes by Holland College.

If you have any specific questions about COVID-19, please email our student Experience Team at: student-inquiries@hollandcollege.com

Instructors' Contact Information:

Start Date & Time:

September 1, 2020 at 9:00 a.m.

Location of Classroom:

Waterfront Campus, 98 Water Street, Summerside
Classroom #173

Christmas Break:

End of Semester One - December 11, 2020
Start of Semester Two - January 6, 2021

February Break:

Feb 22 - 26, 2021

Easter Break:

April 2 - 5, 2021

End of Semester Two:

April 23, 2021

Textbooks:

Students are required to have individual learning modules (ILM's) for class by September 2. These are available at the Waterfront Campus Bookstore.

During your time in the program, you will be introduced to many aspects of the carpentry trade and will acquire an understanding of how a building is structurally supported and protected from the elements. Through classroom, lab, and on-site training you will be introduced to building lay-out, framing, roof systems, interior and exterior finish. We are proud of our learning facility and eager to assist you along your educational journey.

Some Program Highlights are:

- Tool & job safety standards and best practices
- Carpentry related theory
- Other courses are: Math/ Blueprints/ Computers & Communications
- Two outdoor compounds where students construct large-scale projects
- Well-equipped shop where students learn how to safely use many stationary power tools
- Introduction to Fall Protection and Powder Actuated Fasteners
- Opportunity to write 1st year apprenticeship block exam if requirements are met.

Student Tool and Clothing Requirements

Required no later than September 16 class, feel free to wait until you get here for tool advice.

| | |
|--------------------------------------|---|
| <u>Hammer:</u> | Minimum 16 oz. (20 oz. is ideal for most tasks) |
| <u>Tape:</u> | 25' imperial |
| <u>Pencils:</u> | Carpenter's pencil and Standard pencils |
